**About Surgical Innovations Group plc**

The Group specialises in the design, manufacture, sale and distribution of innovative, high quality medical products, primarily for use in minimally invasive surgery. Our product and business development is guided and supported by a key group of nationally and internationally renowned surgeons across the spectrum of minimally invasive surgical activity.

We design and manufacture and source our branded port access systems, surgical instruments and retraction devices which are sold directly in the UK home market through our subsidiary, Elemental Healthcare, and exported

widely through a global network of trusted distribution partners. Many of our products in this field are based on a "resposable" concept, in which the products are part re-usable, part disposable, offering a high quality and environmentally responsible solution at a cost that is competitive against fully disposable alternatives.

Elemental also has exclusive UK distribution for a select group of specialist products employed in laparoscopy, bariatric and metabolic surgery, hernia repair and breast reconstruction.

In addition, we design and develop medical devices for carefully selected OEM partners, and have also collaborated with a major UK industrial partner to provide precision engineering solutions to complex problems outside the medical arena.

We aim for our brands to be recognised and respected by healthcare professionals in all major geographical markets in which we operate and provide by development, partnership or acquisition a broad portfolio of cost effective, procedure specific surgical instruments and implantable devices that offer reliable solutions to genuine clinical needs in the operating theatre environment.

The Group currently employs approximately 100 people across two sites in the UK. Product design, engineering and manufacturing are carried out at the SI site in Yorkshire. Commercial activities including marketing, UK distribution and international sales and marketing are based at Elemental Healthcare in Berkshire.
